

Kaiser Permanente Select Network

As a KP Select member, you have access to high-quality care provided by Kaiser Permanente clinicians, specialists, and affiliated providers.

Medical offices

At most of our Kaiser Permanente medical offices across the Front Range, you can see a doctor, fill a prescription, and get lab and X-ray services – all in one trip. When you receive care from our clinicians at Kaiser Permanente medical offices, we have access to your complete medical record and can coordinate your care across medical specialties and locations – so you don't have to.

You can also choose to see one of the many affiliated providers who meet the same clinical quality standards as Kaiser Permanente doctors. Choose the provider you think is right for you and switch at any time.
