

## **An Integrated Care Model is Good For Your Employees — and Your Bottom Line Transcript**

Narrator: Kaiser Permanente is more than a health plan. We're an integrated healthcare system, with care teams, hospitals, and health plans folded neatly into one convenient package. One of the most effective ways we can manage costs and deliver better health outcomes is by leveraging our integrated model to provide our members with the right care, at the right place, and at the right time. With the long-term savings we offer our customers, superior health outcomes, and convenient, coordinated care, it's no wonder Kaiser Permanente is the preferred health plan for so many organizations nationwide.
