Welcome to your *Rest and Revive* toolkit

Nearly a quarter of U.S. workers suffer from insomnia, and far more than that report experiencing basic symptoms like fatigue and sleepiness. Those symptoms are linked to memory problems, workplace accidents, and increased absences.* But with this easy-to-use toolkit, you can help your employees get on a path to better sleep—helping to improve morale, reduce stress, and even lower health care costs for you and your employees. Here’s what’s included:

- **7 weekly emails** to guide your employees through the program, plus a promotional email to kick things off
- **A poster** to help drive engagement at the workplace
- **An employee guide** with facts and tips for getting better sleep
- **A sleep log** for keeping track of each night’s rest
- **A daytime activity log** to show how food, drinks, and physical activity affect sleep

Take the first step

Maximize your program’s impact with this hands-on action guide. It’s designed for flexibility to fit your organization’s needs—and improve engagement by helping your employees adopt better sleep habits. You simply check off the boxes as the checklist walks you through the four basic steps of a successful program:

1. **Assess**
   - Use data to learn where your organization stands on workforce health.

2. **Plan**
   - Set goals, schedule events and activities, and develop a communications strategy.

3. **Engage**
   - Launch and promote the program to your workforce.

4. **Measure**
   - Evaluate your program’s success and set future goals.
